

Welcome to TeacherEase!

In this packet you will find information regarding how to access and use TeacherEase to track your student(s).

Login Procedure

Once you notify the school of your personal email we will enter you in to the system. After your information has been entered you will receive an email giving you your password. The first time you login you will be prompted to create you own password.

You login by going to www.schoolinsight.com. Or you can visit the school website www.mcr4.k12.mo.us and click on the TeacherEase link. In the top right corner you will see a login area that looks like the following:

Parent Features Overview

Parents can get current information about their child's studies, communicate with teachers, and motivate students to higher performance.

Assignments

Parents can check a student's current assignments. Did they get tonight's homework done yet? If they were absent, what do they need to make up?

Grades

Parents can check their child's current scores and get details. They can praise a student doing well. They can motivate a student not working to their potential. They can get help for a struggling student.

Email

Parents can email teachers and administrators. They can better communicate with the school staff without playing "phone tag."

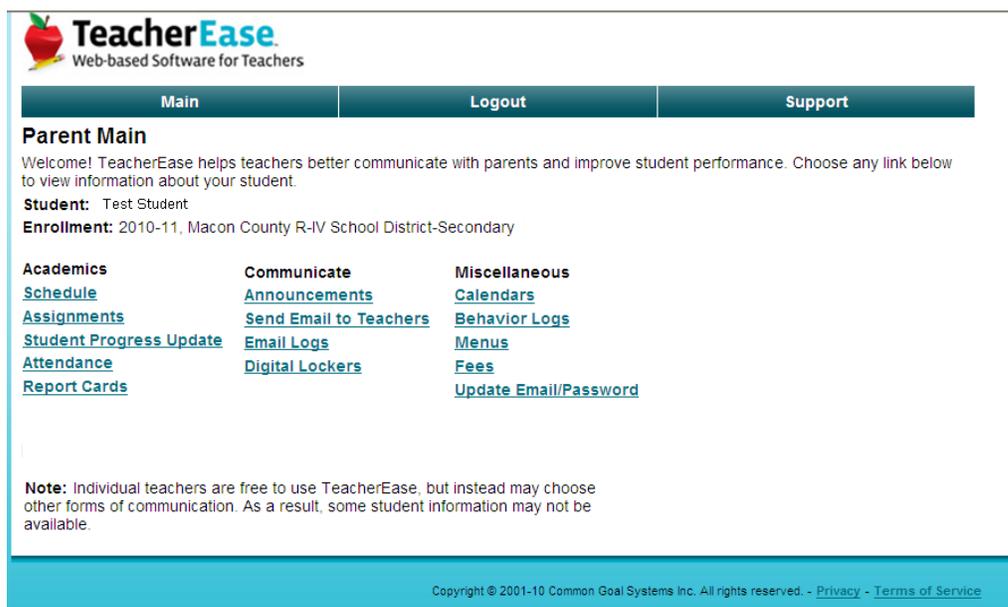

Real-Time Data

When teachers enter data into TeacherEase, it's automatically available to parents (teachers don't have to remember to upload it to the web). Parents can provide immediate reinforcement and modify student behavior since there's no delay.

Students Self-Monitor

Students can also login to TeacherEase and check their own information (just like parents). You'll hear in the hallways, "I'm only 1% under an A, I really need to study for the next quiz."

Main Page (This is what the screen will look like then you login.)

The screenshot shows the TeacherEase web interface. At the top left is the logo with an apple icon and the text "TeacherEase Web-based Software for Teachers". Below the logo is a navigation bar with three buttons: "Main", "Logout", and "Support". The main content area is titled "Parent Main" and includes a welcome message: "Welcome! TeacherEase helps teachers better communicate with parents and improve student performance. Choose any link below to view information about your student." Below this, it displays "Student: Test Student" and "Enrollment: 2010-11, Macon County R-IV School District-Secondary". There are three columns of links: "Academics" (Schedule, Assignments, Student Progress Update, Attendance, Report Cards), "Communicate" (Announcements, Send Email to Teachers, Email Logs, Digital Lockers), and "Miscellaneous" (Calendars, Behavior Logs, Menus, Fees, Update Email/Password). A note at the bottom states: "Note: Individual teachers are free to use TeacherEase, but instead may choose other forms of communication. As a result, some student information may not be available." The footer contains copyright information: "Copyright © 2001-10 Common Goal Systems Inc. All rights reserved. - Privacy - Terms of Service".

If you have multiple children you will be given a drop down box where you can select your child.

By clicking on the **Schedule** button you are able to see your student's schedule for Quarters 1-4.

Assignments: This link allows you to see which assignments are due on each day.

Student Progress Update: This link will take you to a screen that gives you a current grade book grade for your student. Listed below the grade book grades you will see a missing assignment box. This box allows you to see what assignments your student has missing. By clicking on the grade book grade you can see individual assignment grades for each class.

You are also able to see a current lunch/breakfast balance. This feature is under the **Fees** button.

Need to know what the menu for breakfast or lunch will be for the month? View the **Menu** button.

The **Calendar** button allows you to see when we have Early Outs or No School.
